

Integrating Infobase Content into Canvas

Infobase offers simple integration into Canvas to enable faculty to quickly find and easily embed content into their online courses with just a few clicks. Watch the [video](#).

In this example, we're building a course in Canvas on the author Toni Morrison.

Here, *Films On Demand* and *Bloom's Literature* are already integrated into Canvas. Note the small product icons in the **Edit** field.

You must subscribe to these products in order to enable them.

First, to embed videos into the course, **click the *Films On Demand* icon** to access content.

Search by keyword, use **Filters** to narrow the results, and then browse options.

Here, users can **Embed** their selections with just one click.

Users can also **Preview** videos first.

After **Previewing** a video, users can also **Embed** the content.

Integrating Infobase Content into Canvas

Next, to embed additional educational content from *Bloom's Literature* into the Canvas course, click the **Bloom's icon**.

Follow the same procedure: **Search** by keyword, browse options, **Preview** or **Embed** into Canvas with a single click.

Faculty can quickly fill their courses with trusted academic content and streaming video from Infobase.

How to Integrate Infobase Resources into Canvas

It's easy to integrate your Infobase resources into Canvas.

First, open your **Infobase Admin Portal**. Select the database you'd like to integrate into Canvas, go to **Product Settings**, and choose **Integrations** from the drop-down menu.

Scroll down to the **Learning Management Systems** section to see a list of possible integrations for this Infobase resource.

Under **Request Changes**, click the envelope next to Canvas to initiate an email to the Infobase Support team.

Learning Management Systems		
LMS	Status	Request Changes
Canvas	×	
Desire2Learn	×	
itslearning	×	
Schoology	×	

In the email pop-up window, type, **"I'd like to add LTI integration for Canvas."** Infobase Support will reply with two lines of text you'll need to finish integration setup. You will receive a **Consumer Key** and **Shared Secret**.

How to Integrate Infobase Resources into Canvas

Next, open Canvas.
Click **Settings**, and select the **Apps** tab.
Search for the Infobase resource you'd like to add.

Select the resource and
click **Add App**.

In the pop-up window, copy & paste the **Consumer Key** and **Shared Secret** supplied by the Infobase Support Team.
Click **Add App**.

Now the Infobase resource icon will appear in the **Edit** field, and you can begin embedding content into your online courses.

Infobase resources can also be added to additional course management systems such as Blackboard, Moodle, and D2L (Desire2Learn).

How to Integrate Infobase Resources into Canvas

To contact Infobase Tech Support, go to the searchable **Support Center** via the “**Help**” link in *Films On Demand*, call (800) 322-8755, or email Support@Infobase.com.
